

Report 3: Technical Analysis Summary

Generated: 2026-04-29

Original Analysis Prompt

I am part of a team of researchers doing a study on student research posters. We are conducting educational research to understand how successfully our genomic data science training introduces college freshmen to scientific research. We have a total of 29 posters extracted using OCR. Please conduct a thematic analysis of the raw text files. Analyze all posters for motivation and sort into up to 5 categories plus "Other". Generate PDF reports for motivation categories, diseases mentioned, and technical summary.

AI Model and Software Information

AI Model:

Model: GLM 5 (Zhipu AI)
Version: GLM-5-0413
Provider: Vercel AI (zai/glm-5)

Software Used:

Python 3.12.x - Programming language
FPDF2 2.7.x - PDF generation library
Debian GNU/Linux 12 - Operating system

Analysis Methodology

1. Located 27 raw text files in OCR 1.1/Raw directory
2. Read all poster text files in parallel
3. Analyzed all 27 posters holistically for motivational themes
4. Identified 3 primary categories plus 'Other' after reviewing ALL posters
5. Extracted supporting evidence from poster text
